

DHYAN VASUDEVA GOWDA

Chicago, IL | 857-506-4687 | dhyan-sanvi@gmail.com | www.linkedin.com/in/dhyan-v-gowda

OBJECTIVE

Graduate Computer Science student with a strong passion for software development and problem-solving, eager to apply skills in a forward-thinking tech company to contribute to innovative solutions and grow within a collaborative environment.

EDUCATION

Illinois Institute of Technology, Chicago, IL Expected December 2025
Master of Science, Computer Science

Northeastern University, Boston, MA April 2024
Master of Science, Computer Science, GPA: 3.66/4

Jss Science and Technology University (Formerly Sjce), Mysuru, India July 2023
Bachelor of Engineering in Computer Science, CGPA: 8.66/10

SKILLS

- **TECHNOLOGY:** Python, Java, C, C++, HTML, CSS, JavaScript, TypeScript, CSS.
- **FRAMEWORK AND LIBRARIES:** Node.js, Flask, Angular, Streamlit, Maven, Npm.
- **DATABASES:** MySQL, MongoDB.
- **PRODUCTIVITY TOOLS:** Proficient in MS Office suite, Google Suite, MS Project Professional.
- **FOUNDATIONAL:** Data Structures and Algorithms, Object-Oriented Programming, Problem Solving, Operating Systems, Database Management System, Computer Networks, Information Security.
- **CERTIFICATIONS:** Python Data Structures, Web Development Bootcamp.

PROJECTS

Employee Profile Management System August 2024 - August 2024

- Built a full-stack Employee Profile Management System with CRUD operations, skill/experience filters, Angular frontend, Java Spring Boot backend, and SQL database to streamline HR processes.

Travel Itinerary Planner August 2024 - August 2024

- Designed a Travel Itinerary Planner to simplify trip planning and coordination, featuring a Flask backend, Streamlit frontend, and MySQL database for efficient data management. Users can create, manage, and share detailed itineraries.

Stock Market Simulator April 2024 - April 2024

- Developed a text-based stock market simulation application using Java, JSON, and Alpha Vantage API for stock data, enabling users to build and manage virtual portfolios, simulate stock trading, and assess investment strategy performance.

Credit Card Fraud Detection Using Machine Learning December 2023 - December 2023

- Developed a credit card fraud detection system using Apriori and Eclat, achieving 85% accuracy in identifying fraudulent transactions and enhancing real-time fraud detection in e-commerce.

VOLUNTEER EXPERIENCE

Volunteer August 2019 - July 2023

Computer Society of India

- Volunteered with the Computer Society of India (CSI) at JSS Science and Technology University (SJCE), contributing to a dynamic technical club focused on enhancing students' technical skills by organizing tech festivals and competitions.

Organiser September 2020 - October 2021

Educational Camp - Computer Literacy Initiative

- Led digital literacy initiatives at Arohana Public School, India, for over 100 students, delivering foundational computer skills to improve technical proficiency and readiness for advanced learning.
